Suspension/Loss of Privileges for Health and Safety

It is the responsibility of the library to maintain a healthy and clean environment for all library users and to protect the community's investment in library collections, equipment and property. In order to fulfill this responsibility, the library may restrict a user's ability to borrow materials and/or to visit library facilities when such use may jeopardize the health and cleanliness of library facilities, collections and users.

Examples of situations where borrowing of materials may be suspended include, but are not limited to:

- Evidence that items on loan to a customer may have been returned with insects that are known to be damaging to library materials or can result in pest infestations in library facilities, e.g. fleas, bed bugs, roaches, silverfish and some types of beetles
- Evidence that items on loan to a customer that have been returned with drug residue on the material. This will be confirmed by police testing before suspension.

Examples of situations where access to library facilities may be suspended include, but are not limited to:

- Customers or customer possessions with bedbugs. fleas or lice
- Customers with clothing that is stained with bodily fluid.
- Any person who poses a health or sanitary risk or whose bodily hygiene constitutes a nuisance to other persons.

Should it become necessary to suspend or deny library privileges of a customer in order to protect library collections, facilities or other users, notification of the suspension will be made by the Administrator, other designated staff members and/or police.

Access to facilities and borrowing will be restored when the suspended customer demonstrates that the situation that caused the loss of privileges has been remediated; with the exception of confirmed evidence that materials have been returned with drug residue; at this point the customer will be banned and charged

for the withdrawn material. Any customer who has privileges suspended under the terms of this policy may request a re-evaluation of the suspension by contacting Administration.
